

"Duplicated" fields in OfficeActivity table

Last updated by | Naser Mohammed | Mar 19, 2023 at 7:18 AM CDT

Customer ask:

Running the schema check on the OfficeActivity table returns "duplicated" fields.

Microsoft Sentinel | Logs

Response from PG that "It's not a bug, during the lifetime of the table some fields have changed (and their underlying table column) and to not disrupt customers that rely on old fields (and to prevent data loss) their names were changed by adding an underscore ("_") to the end."
